Vend-It 2000

52 $\frac{5}{8}$ "

*Shown with Optional Wall Canopy

VR2000

Durable, secure, and easy to install, the Vend-It™ is a painless and profitable service addition to a variety of business models

- Uses standard coin-pulse coin acceptor and bill acceptor (Sensortron™ and Talos T612 are standard)
- Not a modified snack vendor

Customer Friendly

- Makes change
- Motor fault prompts customer to make a different selection
- CryptoPay and Nayax Credit Card Options

Easy to Set up and Flexible

- Fully and truly rear serviceable (Patent No. 6,994,230)
- Per item pricing
- Completely operator configurable: no tools required
 - Vend up to 32 items from 4 shelves
 - Mix and match motor position and/or type (single or dual drive) in any configuration you desire
- Machine controller automatically senses the location of each motor and reconfigures itself

Easy to Maintain

- Walk-by fault indicator
 - Low coin level in hopper
 - Bill validator out of service
 - Motor fault
- Provides individual testing of the coin mechanism, coin hopper and each motor (individually, by row, all)

Designed to Maximize and Safeguard Profits

- Full data logging gives accountability: Total deposited, bills deposited by denomination, coins deposited, and quantity of items vended

Built to Last

- NEMA-4 waterproof enclosure for the display & input keypad
- Remotely mounted machine controller

Best Security

- Enhanced Security
 - Door constructed of 12-gauge stainless steel
 - 1/2" thick Lexan layer with 1/4" thick Lexan layer in front to allow inexpensive scratch replacement

Designed to Minimize Installation Costs

- Rear door is easily reversible (like a refrigerator door)
- Designed to be installed by two people without heavy equipment

***Rough Wall Opening Dimensions: 32"W x 48"H**

Vend-It 3000

VR3000
